Consumer Notes:

Although there's a pile of stuff this month (most unusual for December, if you've been following along at home), there's one really huge thing on this list: the first of the Evangelion DVD's! Not that the other stuff here isn't cool too, but this DVD is a really big deal. In other news, there's more Bebop (which everyone should be watching) this month, lots of value-priced box sets, another volume of Urusei Yatsura TV and some cool Lain shirts. We've brought in lots of inventory for your last minute needs.. give us a call if you need something.

Finally, everyone here at The Right Stuf International would like to wish every one of you out there a pleasant holiday, and we'll see you again next year!

JEFF'S PICK(S) OF THE MONTH

There's a doubt? Unless you're totally Eva'd out, the first Evangelion DVD should be in every Christmas stocking or under every tree this year. Really!

Have a nice holiday, everyone!
